About us	Sciences Po Saint-Germain is the youngest school of government in France, founded in 2013 by two leading universities: CY Cergy Paris Université and Université de Versailles-Saint-Quentin-en-Yvelines. As such, our institution brings together an inquiring mindset and the long-established excellence of French higher education. Undergraduate students acquire in-depth knowledge in social science, law, economics, international relations and contemporary history, before specializing in their Master's degree.
Location	Listed for historic preservation purposes, our school buildings house a library, a cafeteria and a gym on a leafy campus. Close at hand, students will find Saint-Germain-en-Laye city center, lively, historic and full of charm, and a large and beautiful forest. The campus is about 30 minutes away from central Paris by public transportation.
