Report Course Evaluation

Please find attached the feedback the students gave on your course. To facilitate the interpretation of the results, we have compiled some information for you:

Your report contains an indicator, so you can easily compare your course to others from your department and also use it as a basis for the discussion with your students. You will also find an overview of the averages of the indicator over the past four semesters in all departments (see p. 2).

The indicator *LLI (Lehr-Lern-Index)* is calculated from the arithmetic mean of the questions 2-7 in the area "Teaching & Learning" in the questionnaire. As another indicator you can also find the question of the overall satisfaction (asked in every course).

The Educational Development Team of the Academic Staff Development supports all lecturers in further developing their teaching competence. You can choose your topics from a broad spectrum of service offers in different formats, such as individual advising, (teaching) coaching, short presentations and workshops. In a personal meeting formats and topics can be compiled that meet your individual requirements. You can find more information on page 3 of this letter.

According to the evaluation regulations you shall discuss the results of the evaluation with your students. This is why the course evaluation takes place in the middle of the semester. Of course you can use the different presentation formats of the report.

By statute, the deans of studies and the members of the Committee on Teaching can inspect the evaluation results in a password-protected area of the QM homepage. This does not apply to additionally/voluntarily evaluated

I hope you will gain valuable information and will gladly answer any of your questions.

Yours faithfully

Christine Pickert

Course Evaluation

Dear lecturers,

in order to give you feedback about the students' view on your course at a glace, Quality Management developed the questions in the area "Teaching and Learning" in cooperation with the Centre for Teaching and Learning in Higher Education. They contain important factors that promote sustainable learning.

Here you can find short explanations of the questions as well as a selection of the offers of the Centre of Teaching and Learning:

The Center for Teaching and Learning as part of the

Academic Staff Development supports all lecturers in their pursuit of teaching excellence. Our Workshop-Programme covers a great variety of topics; the individual coaching format allows you to work very specifically on your objectives.

Individual Topics:

- Your course evaluations as a basis for individual development
- Refining your teaching formats
- How to manage difficult situations in teaching

Workshop-Programme:

- Teaching your first course in English
- Planning your courses effectively
- Moderation in teaching contexts
 - New Media in teaching

The popular series of lunch-break presentations "Hochschuldidaktik über Mittag" continually offers you new inspiration for your teaching practice.

Our services can be tailored to meet the specific requirements of your course, faculty or individual career plans.

ITEMS:

The learning objectives of this course are clearly communicated.

With the help of learning objectives the students understand what they shall do with the content. The clear communication of learning objectives creates transparency. The students know why they shall learn something and what they might need it for in other situations in life.

I understand the way the course is structured (content-wise).

A logical order is crucial to make the content comprehensible while studying. This is true of the entire semester as well as single classes. A recurring theme supports the chance of learning success and thus the motivation.

Examples from real life or research help me to better understand the subject matter.

The practical relevance of the subject matter is demonstrated as this is important to enhance the learning motivation. Specific examples as well as novel, unexpected and special information capture the attention of the students and thus improve their learning success.

On request the teacher gives me valuable feedback and information.

Feedback in the courses and/or office hours helps the students to assess their learning progress and success. An important task of the teachers is to enable and guide their students to study autonomously.

The items, that are mentioned in the index LLI are the following:

Complex issues are explained in a way which is easy to understand.

We do not publish a result if there are only two courses or less.

- (1) Seminar/other
- (2) Tutorial/AG/Colloquium
- (3) without student tutorials
- (4) Lecture/Kernkurs
- (5) Seminar/Laboratory
- (6) arithmetic mean over all departments

The structure of the course is clear.

I feel I can ask questions and make comments at any time.

The use of practical examples and eamples from research help me to understand the material better.

I get useful feedback and advice from the lecturer when I asl.

I can summarize the important terms and concepts that are taught in this course.
