Title of master's thesis:

First reviewer:

I. I hereby declare that the above-mentioned master's thesis has been composed entirely by myself and that I have used the stated resources only. This means especially that **any content** (such as texts, illustrations, data, models, ideas, hypotheses, arguments; even if these are single sentences or partial sentences) **contributed by other persons and which I have used is individually and explicitly referenced. To that end, I have included comprehensive and precise citations identifying the actual source used. Extracts from other texts are referenced immediately after they appear in the text** (please note that a reference, e.g. at the end of a paragraph that also includes your own text or passages taken from other sources, does not suffice!). I have clearly identified the use of all sources, irrespective of type (such as journal essay, internet page, book, conference paper, primary source, secondary literature) and extent, i.e. regardless of whether I have used the content in question in whole or in part, edited or unedited, verbatim, in summary or in translation. This serves to clearly identify my own work vis-à-vis that of others.

I further declare that the enclosed thesis has not been submitted before as a bachelor's and/or master's thesis or as a record of academic achievement for any other course either in whole or in part. If parts of my thesis were submitted before, I hereby declare that I have identified the passages/illustrations/data etc. in question as self-quotations by including a comprehensive and precise citation of the exact record of academic achievement as described above. An exception are master's theses which are handed in at one of the partner universities within a double degree agreement of the Department of Politics and Public Administration and which are going to be recognized in Konstanz through recognition procedures.

I am aware of the following:

- I am guilty of **plagiarism** if, contrary to the requirements set out above, I use the work of others in my thesis without acknowledging the precise source. This would be to lay claim to an achievement that is not my own.
- If a candidate intentionally violates the University of Konstanz's Statutes to Ensure Good Scientific Practice when composing his/her thesis, it will be, in all probability, judged as an attempt at cheating (**plagiarism**). This means that the thesis will be graded "nicht ausreichend/fail" (5,0), placed on record in the student's examination file, and put before the Examination Board (StPA).
- In repeated or particularly serious cases, the StPA may decide to exclude the candidate from further performance assessments, resulting in a complete loss of right to take any further examinations in this study programme.
- The legal basis for this is laid down in the applicable examination regulations for the study programme in question.

I have taken note of these guidelines regarding plagiarism.

II. I also submit an unprotected **electronic version** of my final thesis (preferably in .docx or .pdf format).

III. A current "**Immatrikulationsbescheinigung**" (**certificate of enrolment**) is enclosed.
